**Welcome to the world of Beko Built-In appliances where functionality and simplicity blend harmoniously with elegance and style.**

The kitchen is increasingly the focal point of the home where we spend more and more time. It is where families get together and friends meet and chat. Beko Built-In appliances allow you to create affordable and contemporary kitchens designed to withstand the demands of a busy family life with useful features suited to your individual needs.

Using the latest technology and state-of-the-art engineering techniques, the Beko Built-In range offers a wide range of quality, energy efficient products that allow you to create an individual kitchen perfectly matched to the style of your choice.

All appliances in the range are 'A' energy class rated\*. The new cooking range features stainless steel handles (except white models), high quality hinges and robust doors which carry 20% more weight than current standards impose. They also now have a massive oven capacity (65 or 67 litres) and include a recessed grill element and hinges for easy door removal.
